Swing stopper opener

Robust construction – high opening rate

Our RICO swing stopper openers have been specially developed for the harsh conditions that arise when opening swing stopper bottles. And they prove themselves every single day because they are now being used successfully all over the world.

Low-maintenance gear drive

Optional:

- + Rinsing and flushing device
(foam cleaning also available on request)
- + Remote maintenance
- + Operating data collection

Your benefit:

- + **Very high opening rate**
- + **Impervious to leaking liquids and dirt**
- + **Good accessibility for cleaning**
- + **Easy alignment and opening of the swing stopper without alignment errors**
all on the star wheel
- + **Tried and tested press-on station**
- adjustable pressure
- cam-controlled slider
- + **Easily convertible**
to different bottle sizes
- + **Stainless, low-maintenance gear drive**
- + **Low wear**
as no belt, aligner, opener and clamp star are necessary
- + **Low energy consumption**

MACHINES AND EQUIPMENT
FOR THE BEVERAGE INDUSTRY

The alignment station

lowers onto the closed swing stopper, the alignment flap engages and turns the bottle to the opening position.

The press-on station

opens the swing stopper. The pressure is adjustable, and the sliders are cam-controlled.

Lifting the swing stopper

Escaping liquids or dirt cannot harm the bottle plate located under the bottle.

- Suitable for porcelain and plastic bobbins
- Stainless steel design
- PLC control
- High-quality motors and control components from renowned manufacturers

EVERYTHING FROM A SINGLE SOURCE

Take advantage of the **synergy effects** that result from our integration into the **PÜTZ GROUP!** In addition to machines and plants for the beverage industry, we can also offer you the right testing technology.
