

MACHINES AND EQUIPMENT  
FOR THE BEVERAGE INDUSTRY

**We check and change. All of them.**

## For optimum hygiene. Guaranteed!

RICO offers everything for this purpose from a single source: Rubber changers, flip-top bottle inspectors and swing stoppers.

All components are designed according to the latest hygienic knowledge and achieve outstanding biological values.

### Rubber changer

- + Performance of between 3,000-10,000 rubber seals / h
- + With camera integration for quality assurance

### Flip-top bottle inspector

- + Up to 34,000 bottles / h
- + Toggle test
- + Seal rubber test
- + Flip-top test for all flip-tops (magnetic or non-magnetic)
- + Optional: Empty bottle inspection

### Swing stopper

- + Up to 32,000 bottles / h
- + Integrated flip-top closure force control
- + Mechanical forced guidance of the flip-top during the closing process ensures a central and straight positioning of the toggles
- + Optional: Toggle test, seal rubber test

MACHINES AND EQUIPMENT  
FOR THE BEVERAGE INDUSTRY

**We check and change. All of them.  
For optimum hygiene. Guaranteed!**

The latest hygiene technology and  
construction for the beverage industry.

**BVH 32:**

All the components in our proven swing stopper-closing machine were revised  
in accordance with the latest hygiene guidelines.

**40 YEARS OF PRODUCTION**

We have been successfully  
producing innovative individual  
machines and complete systems  
for the beverage industry for  
over 40 years.

We will put your production  
on course for success.

**We look forward  
to hearing from you!**
