

MACHINES AND EQUIPMENT
FOR THE BEVERAGE INDUSTRY

Swing stopper closing machine BVH 3.5

Best biological values. Perfect hygiene.

RICCO swing stopper closing machines are developed according to the latest hygiene standards and revised constantly. Thanks to their uncompromising hygienic design, they ensure absolute hygiene and cleanliness in your bottling line. In addition, the size of the machine table has been reduced to a minimum.

**Up to 3,500
bottles/h**

Your benefits:

- + **Compact size and a high-quality design,** integration is possible even where space is limited
- + **Mechanical forced guidance of the toggles.** The toggles always sit centrally and straight
- + **Closing ration of over 98 %** for new and returnable bottles
- + **Outstanding biological values** thanks to an uncompromising hygienic design
- + **Swing-stopper-saving, low-wear mode of operation**
- + **Low energy consumption**

MACHINES AND EQUIPMENT
FOR THE BEVERAGE INDUSTRY

Swing stopper closing machine BVH 3.5

Best biological values. Perfect hygiene.

Integrated as standard:

- High-quality stainless steel design
- Integrated height adjustment for processing different bottle heights
- Integrated flip-top test
