

RICO

MACHINES AND EQUIPMENT
FOR THE BEVERAGE INDUSTRY

Fast and accurate swing stopper installation

Fully automatic swing stopper installation machine

The fully automatic RICO swing stopper installation machine makes the swing stopper installation highly efficient and cost effective: It impresses with a very high throughput and minimal error rates. The correct installation is monitored by a camera; defective bottles are automatically discharged to a downstream workstation.

Your benefits:

- + Highly efficient**
short payback period thanks to a high assembly performance of 6 000 swing stoppers / h
- + Automatic transfer**
of the swing stoppers from the swing stopper production machine to the swing stopper installation machine
- + Automatic alignment**
of the swing stopper installation using the bottle crest
- + Camera monitoring**
for monitoring the correct swing stopper installation
- + Consistent installation performance and installation quality**
- + Low setup costs**
thanks to automatic format changes
- + Low follow-up costs**
new formats are easily and simply retrofitted
