

MACHINES AND EQUIPMENT  
FOR THE BEVERAGE INDUSTRY

## Our chamber pasteurizers – maximum benefits for your production

Cutting-edge energy and control technology combined with low purchase and installation costs make your decision for a RICO chamber pasteurizer easy. The fully automatic process control can be customised easily to the different process parameters of a variety of products and at the same time allows for the documentation of process data.

Energetically highly efficient thermal insulation ensures a large, usable interior volume with small external dimensions and noticeably reduces operating costs.

### CHOOSE THE RIGHT SIZE FOR YOU.

Chamber pasteurizers for 1 to 12 pallets. We are happy to realise special customer requests.

### VERSATILE IN USE

Thanks to mobile design versions and the optional indoor / outdoor installation.

### Your benefit:

- + **Maximum energy efficiency**  
thanks to high temperature insulation materials
- + **Best steam circulation**  
thanks to large-scale fan wheels in a maintenance-friendly design
- + **Uniform heating of pasteurization products**  
across the entire chamber pasteurizer
- + **Quality data collection**  
thanks to logging on a USB stick or a network transmission to production control systems
- + **The fully automatic pasteurizing control system with integrated process monitoring**  
allows for individual customisations for different customer products
- + **Automatic exhaust process**  
via steam exhaust valves prior to the opening of the door
- + **Compact and space saving**
- + **Integrated remote maintenance as standard**
