

MACHINES AND EQUIPMENT
FOR THE BEVERAGE INDUSTRY

Time for unclouded drinking pleasure.

Time to pasteurize those barrels.

After two years of restrictions, more major events can now finally take place again – and beer barrels are making a comeback. Our RICO pasteurizers optimally protect the microbiology of your beverage and increase the shelf life of your product.

To date,
**MORE THAN
350 CHAMBER
PASTEURIZERS**
are already successfully
in operation!

Large internal fans

Wall thickness of 100 mm

PLC control incl.
remote maintenance

Internal pallet transport

Impact protection

MACHINES AND EQUIPMENT
FOR THE BEVERAGE INDUSTRY

Our chamber pasteurizers – maximum benefits for your production

- + Maximum energy efficiency**
thanks to high temperature insulation materials
- + Optimum steam circulation**
thanks to large-scale fan wheels in a maintenance-friendly design
- + Uniform heating of pasteurization products**
across the entire chamber pasteurizer
- + Quality data collection**
thanks to logging on a USB stick or network transmission to production control systems
- + Individual customisations for different customer products**
thanks to a fully automatic pasteurizing control system with integrated process monitoring
- + Automatic exhaust process**
via steam exhaust valves prior to the opening of the door
- + Compact and space saving**
- + Integrated remote maintenance as standard**
- + Repair and maintenance-friendly design**
- + Suitable for different products and container types**
- + Online as well as offline production option**
- + Exterior installation is possible where space is limited**
in production
- + More efficient use of personnel**
No specialist personnel are required for loading

EVERYTHING FROM A SINGLE SOURCE

Take advantage of the **synergy effects** that result from our integration into the **PÜTZ GROUP**! In addition to machines and plants for the beverage industry, we can also offer you the right testing technology.
