

MACHINES AND EQUIPMENT  
FOR THE BEVERAGE INDUSTRY

Maximum benefits for your production:

# Chamber pasteurizers with automatic loading and unloading

- 1 Automatic lift gate on the front and back
- 2 Pallet infeed conveyor
- 3 Pallet outfeed conveyor

## The provisioning and removal take place independently of the pasteurization process!

The finished pasteurized products are automatically removed from the back, so the next batch of pallets can be made ready at the front independently of the pasteurization process.

This reduces the loading and unloading frequency.

## Your benefits:

- + Smoother workflows due to buffer spaces
- + Relief of forklift traffic
- + Lower staffing requirements
- + Improved logistics
- + Loading is possible from two sides

MACHINES AND EQUIPMENT  
FOR THE BEVERAGE INDUSTRY

## Our chamber pasteurizers – the benefits at a glance:

- + **Maximum energy efficiency**  
thanks to high-temperature insulation materials
- + **Optimum steam circulation**  
thanks to large-scale fan wheels in a maintenance-friendly design
- + **Uniform heating of pasteurization products**  
across the entire chamber pasteurizer
- + **Quality data collection**  
thanks to logging on a USB stick or network transmission to production control systems
- + **Individual adjustments to different customer products**  
thanks to a fully automatic pasteurization control system with integrated process monitoring
- + **Automatic exhaust process**  
via steam exhaust valves, before the door is opened
- + **Compact and space saving**
- + **Integrated remote maintenance as standard**
- + **Repair- and maintenance-friendly design**
- + **Suitable for a variety of products and container types**
- + **Online as well as offline production option**
- + **Optional exterior installation in case of a lack of space in production**
- + **More efficient personnel employments**  
No specialist personnel required for loading
