

## SWING STOPPER CLOSING MACHINE BVH 18

### Introduction at Brauerei Schützengarten AG (St. Gallen, Switzerland)

Highest closing ratio of its class!  
Highest level of hygiene!

#### The task:

RICO was commissioned with designing a swing stopper closing machine for 18 000 bottles per hour as part of the renewal of the wet area of the bottling plant.

**Emphasis was to be given to the latest hygiene requirements and easy cleaning.**

#### Our solution:

We were able to present the bottle-closing machine for preliminary acceptance on February 18, 2014 at our former production facility in Aalen after a development period of 6 months. The design was completely reviewed in order to fulfil all the customer's requirements. The machine was delivered and taken into operation in St. Gallen in March 2014.

## SWING STOPPER CLOSING MACHINE BVH 18

### Technical details:

- 18 000 bottles/h
- Integrated flip-top test
- Swing-stopper-saving operation
- Designed according to cutting-edge hygiene research resulting in outstanding biological parameters
- Highest closing ratio of its class
- Hardly any wear parts
- Modern, maintenance-free transmission and drive system
- Plastic cobs in high-quality material

**Dr. Martin Ketterer,**  
**Technical Director:**

“The design engineers at RICO did a very good job of realising our requirements for the machine. It is solidly built and the machine capacity, precision and closure rate exceed our instructions.”

**Hansueli Züger,**  
**Head Master Brewer:**

“The swing stopper closing machine has convinced us with its good finishing, easy operability and exemplary hygienic design.”

#### Optional:

- + Can be converted to other bottle formats
- + Dynamic high-pressure injection (HPI)
- + Control system for swing rubber rings and logo via camera
- + Rinse and splash system and foam cleaning system

## EVERYTHING FROM A SINGLE SOURCE

Thanks to our integration into the **PÜTZ GROUP** and the resulting **synergy effects** we are able to offer you not just machines and equipment for the beverage industry, but also the appropriate testing technology.

#### FOR OVER 50 YEARS

we have been successfully producing complex, customer-specific individual machines and complete systems for the beverage industry.

We will get your production on the path to success.

**We look forward to receiving your request!**
