Suitable for all areas of use
- + Fast**
  - easy replacement of wearing parts [e.g. groove ring, bottle holder]
  - quick and easy format adjustment
- + Save resources**  
50% less compressed air consumption than conventional bottle grippers
- + Customised**  
Customer-specific and machine-specific design

**BOTTLE GRIPPERS AND PACKING HEADS**

The companies Nordbräu and Jesuitenquelle in Ingolstadt have also been using RICO bottle grippers since 1997.

**Feedback from Nordbräu:**

“We chose this bottle gripper because it has an excellent service life and is very robust thanks to its turned rather than injection-moulded design. The bottle gripper’s easy assembly also means that operating staff can replace wearing parts without any problems. When we purchased our new filling machine in 2016, we once again opted to equip all gripper heads with RICO bottle grippers as we are very pleased with their level of quality.”

**EVERYTHING FROM A SINGLE SOURCE**

Thanks to our integration into the **PÜTZ GROUP** and the resulting **synergy effects** we are able to offer you not just machines and equipment for the beverage industry, but also the appropriate testing technology.

**FOR OVER 50 YEARS**

we have been successfully producing complex, customer-specific individual machines and complete systems for the beverage industry.

We will get your production on the path to success.

**We look forward to receiving your request!**
