RICO Chamber pasteurizers

# Pasteurization at the highest level – economical & powerful

QUALITY MADE IN GERMANY
Special machines for your production

RICO chamber pasteurizers offer maximum efficiency, state-of-the-art technology and maximum product safety. They are energy-optimized, flexible to use and impress with their low maintenance and operating costs. Thanks to their high-quality workmanship and robust design, they are particularly durable.

**More than 350 systems are already in successful operation worldwide – a clear sign of confidence in RICO quality. You too can rely on proven technology from Ellwangen for your production!**

## A wide range of options – you decide!

### What size?

- **for 1–12 pallets**
- **or size according to customer-specific special requirements**

### What would you like to pasteurize?

- **Bottles** (in crates)
- **Kegs or barrels**
- **Cans** (in baskets)

### Which pallets?

- **Euro pallet**
- **Brewery pallet**

### Which doors?

- **Swing door** left- or right opening
- **Double swing door**
- **Lifting gate** motorized

### Which placement?

- **fixed** (metal feet) or **flexible** (rollers with flexible steam hose)
- **Indoor or outdoor line up**

### What loading with forklift truck?

- **1 pallet each**
- **several pallets at the same time** side by side or one behind the other

### Position media supply?

- **left**
- **right**

### Which data logging?

- Storage on **USB stick** (standard)
- Storage on **USB stick and on network drive** (comfort)

## Your benefits:

- **Maximum energy efficiency** thanks to high temperature insulation materials
- **Best steam circulation** thanks to large-scale fan wheels
- **Uniform heating** throughout the chamber pasteurizer
- **Quality data collection** via USB or network
- **Fully automatic control with process monitoring**
- **Suitable for different products and container types**
- **Automatic exhaust process** before opening the door
- **Remote maintenance included as standard**
- **Maintenance-friendly design**
- **Compact and space-saving**
- **Online and offline production**
- **Outdoor installation when production space is limited**
- **No skilled personnel required for loading**

**Standard configuration (for 1–12 pallets per throughput):**

- Stainless steel design
- Statistical data recorder
- Several retrievable pasteurization programmes
- Temperature measurements inside the bottle incl. a digital display
- Residual steam blowout
- Throughput time: approx. 40–50 minutes
- Pasteurization data recording to a USB storage device and the customer's network

**Our new ticket system for support requests**

Our new ticket system for support requests is now available – especially for urgent matters such as machine downtime or technical malfunctions.

Your request will be recorded in a structured format and forwarded directly to the appropriate specialist team. This allows us to process requests more quickly, ensure transparent workflows, and reduce response times.
